

SUFFOLK COUNTY DEER MANAGEMENT

A professional NYS licensed and insured Nuisance Wildlife Control company since 2013

Fewer deer on your property. No cost to you.

SCDM places vetted, insured Management Hunters on your property to reduce the deer eating your landscaping and carrying ticks into your yard. You set the rules. We handle everything else, and every hunt is logged in The Deer Manager, the app we built to run our program.

SCAN TO SIGN UP

\$0

cost to property owners, every season since 2013

96%

of deer recovered, 284 of 296, in Southampton Village over 3 seasons

62.5%

fewer deer and vehicle collisions in Southampton Village

0

injuries, incidents with residents, or conflicts with other hunters

Recovery rate from SCDM's harvest records. Collision count from the Village of Southampton Police, 16 in 2022 to 6 in 2025.

HOW IT WORKS

From sign up to your first hunt

1

Sign the consent form

Two minutes on your phone. Tell us your rules and if you want a text or email before each hunt.

2

We map your property

Your lot line, homes nearby and NYSDEC setbacks are checked before anything goes up.

3

We hang a stand

An elevated stand, placed where it is safe, quiet and out of the way.

4

Hunting begins

One vetted hunter at a time. You get a report on your property at the end of the season.

FREE AND INSURED

No cost to you, ever. The program is funded by our membership. SCDM carries \$2 million general liability plus a \$5 million umbrella, and every SCDM hunter is covered on your property. We don't hunt where other hunters have permission, so there is never a second group on your land.

YOU STAY IN CONTROL

Tell us your rules: days, times, areas and parking. Ask for a text or email before each hunt. Need your property closed for a party or a contractor? One call and it's closed. Your consent stays in place until you end it, and we remove our stands within 30 days.

SAFE AND DISCREET

Every hunt is booked in advance, with GPS check in and check out. Elevated stands so every shot uses the ground as a backstop, 150 ft from homes for bows and 500 ft for crossbows. Every deer is tracked, harvested deer are removed, and the venison is shared with our members and local food programs.

WHO HUNTS YOUR PROPERTY

Only SCDM Management Hunters: background checked, trained in our Hunting in Sensitive Environments course, proficiency tested, with their license number on every arrow and signed Rules and Procedures. Two does before a second buck has always been our rule, because does drive herd growth. Hunters who break the rules lose their membership.

TRUSTED BY

Village of Southampton

Program since 2023. Remsenburg since 2013. Village of Shoreham since 2025.
